### **EXAMINER'S AMENDMENT**

Authorization for this examiner's amendment was given in a telephone interview with Lawrence McClure on May 14, 2012.

The application has been amended as follows:

**In the claims:**

a. Claims 14, 17-20 are cancelled.

2. The following is an examiner's statement of reasons for allowance: The instant claims appear to overcome the prior art, primarily because the evidence submitted showing unexpected results of the claim invention. The attachments (A and B) show that the difference in fill factor/efficiency of the 2 bus bar arrangement (single cell vs. module) is greater than the difference in fill factor/efficiency of the 3 bus bar arrangement (i.e. for last sample set in attachment B,  $\Delta$  in efficiency with 2 bus bars (from single cell to module)=2.1%, and  $\Delta$  in efficiency with 3 bus bars (from single cell to module)=1.6%). This evidence supports an unexpected result which overcomes the result effective variable rationale in the last rejection and the examiner finds no motivation for a 3 or more bus bar system in a solar cell in a module, as claimed, in addition to the rest of the recited structure claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
